ORTEGA LOVES LEFTIES!

As a left-handed person, you do not need us to tell you how difficult it is to find a stringed instrument with the exact features, fit, and feel you are looking for.

At Ortega Guitars, we understand this challenge, which is why we offer one of the widest selections of left-handed stringed instruments on the market.

In this catalog, you will find 60 models of guitars, ukuleles, acoustic basses, mandolins, and banjos specifically designed for the wide variety of left-handed musicians out there.

With our broad selection of sizes, colors, neck widths and configurations, you are sure to find the perfect instrument for your needs, without the typical "lefty upcharge"!

LEFT-HANDED

NYLON STRING GUITARS

Ortega breaks barriers without losing focus on the basics of classical guitar making. Always conscious of the deep traditions of the guitar construction, we are not afraid to apply contemporary processes in order to improve the playing experience. Two-way truss rods, 12-hole bridges, and a wide variety of scale lengths and nut widths are just some of the ways Ortega is moving guitar building forward in order to make a better instrument for you.
